

**Amizate<sup>®</sup> CLASSIC 750 mg tablets**  
**“white coated”**  
**Product Specification**

**Product Description**

Amizate<sup>®</sup> CLASSIC 750 mg tablets are highly purified enzymatic fish protein hydrolyzate made from fresh marine protein (Atlantic salmon) and manufactured under controlled conditions to obtain unique functional and nutritional properties.

**Formulation**

Active		Specification	Comments	
Amizate <sup>®</sup>	[mg/tablet]	750	Enzymatic salmon protein hydrolyzate ( <i>salmo salar</i> )	
Cellulose			Filling agent	
Tricalcium phosphate			Anti-caking agent	
Magnesium stearate			Anti-adherent	
Coating			Hydroxypropyl methylcellulose, Hydroxypropyl cellulose, Cellulose, Stearic acid, Talcum, Titanium dioxide	
Total weight	[mg/tablet]	840		
Analysis		Specification	Typical Range	Test Method
Amino Nitrogen (AN)	[%]	min 4.5	7.0 ± 2	Formol titration
Microbiological profile		Specification	Typical Range	Test Method
Aerobic Plate Count	[CFU/g]	< 10 000	1 000 – 2 500	NMKL* #86
Coliform	[CFU/g]	< 10	< 10	NMKL* #44
Yeast	[CFU/g]	< 100	< 100	NMKL* #91
Mold	[CFU/g]	< 100	< 100	NMKL* #91
Clostridium perfringens	[CFU/g]	not detected	not detected	NMKL* #95

**Dosage**

Two to three Amizate<sup>®</sup> CLASSIC 750 mg tablets three times a day.

**Storage and packing**

Amizate<sup>®</sup> is a hygroscopic material and must be protected from moisture in order to maintain its product qualities. For extended storage it is furthermore required that the material is stored in airtight packaging, which also protects the product from sunlight in order to maintain its product's quality.

Shelf life with recommended packaging is minimum 12 months.
